Oddfellows Celebrate

St. Patrick's Day in the morning—no in the evening, was the evening that the local Oddfellows chose for the holding of their annual ball in the Opera House. No, they're not all Irish but no person who was present would have known that if they were strangers and had been present for we doubt if "Ould Ireland" herself could have brought together a finer looking bunch of colleens and lads with their green decorations than at this brilliant function.

There was an immense crowd present who thoroughly enjoyed themselves tripping the light fantastic to the beautiful strains of dance music provided by a Calgary orchestra, and the looks on the faces of the guests seemed to demonstrate that

"Tune up the pipes we'll dance a jig.

To-night's the night when hearts are big,

Young hearts and old are blithe and gay,

As ever they were on St. Patrick's day."

The house was splendidly decorated with the emblems of the Order, the three links in red and green shamrock leaves and green and red streamers, and at night when the electric lights were on full force presented a very festive appearance.

A fine lunch had been prepared by the Rebekahs which was served at midnight and of course was eagerly devoured by those hungry erschoreans.

Both Didsbury Lodge and their committees who had charge of the affair are to be congratulated on their efforts and success in carrying out this year's celebration.

BURNSIDE

Mr. Noah Eckel spent the week end in Calgary attending the Calgary-Victoria hockey match.

Don't forget the box social the U. F. A. are giving for the Hall Piano Fund on Friday, March 27, splendid program. Ladies with boxes free. Admission refunded to men buying boxes.

We hear Mr. Wilfred Beckstead has sold his farm and is giving up farming.

Little Edwin Anderson who has been so ill is improving very slowly. We hope to see him up and around very soon.

Mr. and Mrs. Harry Richardson moved through our burg on Friday to their new home near Bancroft.

OBITUARY

Mrs. Lena J. Kolding, aged 32 years, a native of Kansas and formerly of Didsbury, Alberta died on Sunday morning at the hospital in Eureka following a long illness. Besides her husband O. W. Kolding, of Eureka, deceased leaves three children, Clarence, age 12; Mildred, age 2; Clifford, age 3 months; a mother and father, Mr. and Mrs. L. A. Loveland, of Dyerville, California; three brothers and one sister, F. J. Loveland, of Dyerville, California; A. R. Loveland, of Canada; F. R. Loveland, of Canada and Mrs. H. E. Rollier of Oakland. Funeral services were held Tuesday afternoon at 1:30 o'clock from the Cooner funeral parlors with the Salvation Army officiating. Interment was made at the Myrtle Gore cemetery.

Sweet young thing (driving through suburb)—"Would you like to see where I was vaccinated?"

He (with enthusiasm)—"Sure." S. Y. T. pointing toward house which they had just passed—"Well, right in there."

Bonspiel Completed

The local bonspiel has now been completed with the exception of the Secondary Consolation event. The winners were as follows:
Grain Exchange—1. Freeman; 2. Brusso; 3. Liesemer; 4. Watt.
Grand Challenge—1. Ryan; 2. Freeman; 3. Clarke; 4. Huget.
Consolation—1. Miller; 2. Derby; 3. Shephard; 4. Kauffman.
The winners of first prize in this event were the lucky winners of Ford coupes.

A President versus Vice-President knockout competition, losers to put up the suppers has been arranged providing the ice still holds.

TWO OLD TIMERS LEAVE DISTRICT

It is seldom that the Pioneer has to report the departure of two old residents of the district in the same issue but that is what has happened this week.

Mr. and Mrs. W. F. Etsell, who held their sale last week, left on Tuesday for Durham, Minn., for a short holiday before leaving for Oklahoma. They have resided about 16 miles west of town for nearly twenty-two years and consequently have seen a great many changes both in town and district.

Mr. G. W. McNair also leaves on Tuesday for Durham, California, to join his brother, Rube, a former resident of this district. Mr. McNair is another dairy farmer who has made good here after nineteen years residence but both he and Mrs. McNair felt that they wanted a change.

The many friends of both these families will wish them every success wherever they settle down again and are sorry to see them go.

POSTPONED AUCTION SALE TO BE HELD MARCH 30th

The auction sale advertised a short time ago for Mr. Henry Erb, but which was postponed because of certain existing conditions, will be held at his farm on Monday, March 30th.

Intending purchasers are asked to remember the date and also to remember that there will be some fine Holstein dairy cattle put up at this sale. A lot of young cattle in this herd will make fine foundation stock consequently the sale should not be missed.

Swalwell suffered by fire on Sunday, about \$20,000 damage being done. The Trochu Trading Co., MacCullough's hardware and G. Provins' pool room being destroyed.

Lyman Deadrick returned from Oakland, California, recently, where he has been employed as a street car conductor for the past year. He says after a person handles 1000 to 1500 people a day it seems good to get back on an Alberta farm. He left Levi and James Rupp enjoying the best of health and the beautiful California climate.

Lyman will farm a half section of his father's home place this season.

RUGBY W. I.

On the afternoon of Saturday, the 7th of March, the Rugby Women's Institute met at the home of Mrs. Parker to bid farewell to one of their members who was leaving the country. All the members and friends joined in a program of contests arranged by Mrs. Parker and everyone thoroughly enjoyed it. Lunch was served by the hostess, after which

Mrs. Etsell was asked to come forward while Mrs. Cowitz in a neat little speech, expressed the regret of the Rugby Women's Institute in losing another one of their members, and asked her to accept on behalf of the R. W. I. a small gift which was handed to her by Mrs. Hosegood, and all joined in singing "For He's A Jolly Good Fellow," Mrs. Etsell making a suitable reply.

Last Wednesday the Rugby Women's Institute held their regular meeting at the home of Mrs. Hosegood. There were also present some members of the St. Elmo W. I. A paper on Agriculture was given by Mrs. Wahl after which a program consisting of music, singing, recitations and contest was given by the R. W. I. members. Lunch was served by the hostess.

CLAYHOLT--WALROTH

A quiet wedding was solemnized at the Presbyterian manse on Wednesday, March 11th, 1925, when Miss Beatrice Walroth of Crossfield, Alberta, and Mr. Florin John Clayholt of Didsbury, were united in marriage. The ceremony was performed by the Rev. W. J. McNutt in the presence of a number of friends.

Spendthrift Dominions

There is probably no other country which so lightly regards the rights of the future as our own Australia. To tear something out of the continent and pass it over to others for its present cash value has become the ruling principle. After nearly a century and a half of white settlement, the year 1925 finds us still largely hewers of wood and drawers of water for other peoples.—Sydney Bulletin.

Copyrighted, 1922, by Rafael Sabatini
"CAPTAIN BLOOD," a Vitaphone picture with J. Warren Kerrigan
in the title role, is an adaptation of this thrilling novel.

SYNOPSIS

Peter Blood, a young Irish physician, is sent to the Barbadoes as a slave under orders of King James. He is bought by Colonel Bishop, the military commander, and falls in love with Arabella, the niece of the colonel. Spaniards bombard the city and sack it. Blood saves Arabella and Mary Trull. He captures the ship and sails for Tortuga, the rendezvous of buccaneers of the Spanish Main. There Captain Blood, tormented by his fear that he will never see Arabella again and importuned by his comrades, takes command of a pirate fleet. Levasseur, a Frenchman, enlists under him. Levasseur captures a Dutch vessel and lands with Madelon d'Ogeron and holds Madelon as hostage. Upon this scene enters Captain Blood whose ship had lost sight of Levasseur's vessel in the storm.

CHAPTER XVI—Continued

"Not so," Levasseur contained himself with difficulty before that irony. "They were in the Dutch brig."

"I don't remember that you mentioned them before."

"I did not. They are prisoners of my own—a personal matter. They are French."

"French!" Captain Blood's light eyes stabbed at Levasseur, then at the prisoners. He frowned thoughtfully upon Levasseur.

"Yesterday you surprised me by making war upon the friendly Dutch. But now it seems that not even your own countrymen are safe from you."

"Have I not said this is a matter personal to me?"

"Ah! And their names?"

The prisoner answered for him.

"I am Henri d'Ogeron, and this is my sister."

"d'Ogeron?" Captain Blood stared. "Are you related by chance to my good friend the Governor of Tortuga?"

"He is my father."

"The saints preserve us now! Are you quite mad, Levasseur?"

Captain Blood sat down on the cask that Levasseur had lately occupied, and looked up blandly. "I may inform you, to save time, that I heard the entire proposal that you made to this lady and this gentleman, and I'll also remind you that we sail under ar-

titles that admit no ambiguities. You have fixed their ransom at twenty thousand pieces of eight. That sum then belongs to your crews and mine in the proportions by the articles established. But what is far more grave is that you have concealed from me this part of the prizes taken on your last cruise, and for such an offense as that the articles provide certain penalties that are something severe in character."

"You do not take her while I live, he cried."

"Ho, ho!" laughed Levasseur unpleasantly. "Then added: 'If you dislike my conduct we can dissolve the association.'"

"That is my intention. But we'll dissolve it when and in the manner that I choose, and that will be as soon as you have satisfied the articles under which we sailed upon this cruise."

"What do you mean?"

"I'll accept the situation as I find it. Yourself you've fixed the ransom of this couple at twenty thousand pieces, and, as I gather, the lady is to be your perquisite. But why should she be your perquisite more than another's, seeing that she belongs by the articles to all of us, as a prize of war? However, I'll not dispute her to you if you are prepared to buy her."

"Buy her?"

"At the price you have set upon her."

"That is the ransom of the man. It is to be paid for him by the Government of Tortuga."

"No, no. You've set their value at twenty thousand pieces, and for that sum you may have them, since you desire it; but you'll pay for them the twenty thousand pieces that are ultimately to come to you as the ransom of one and the dowry of the other; and that sum shall be divided among our crews."

That Captain Blood should dare oppose him with but a dozen followers whilst he had a hundred at his beck and call never entered the ruffian's mind. But he did not reckon on the cupidity of his own men. They saw twenty thousand pieces within their reach. Levasseur demanded time until he had captured sufficient booty. But Blood would have none of that. Death lurked always in this desperate business, and he added:

"Then let some one buy the prisoners who has."

"And who do you suppose has it if I have not?"

"I have," said Captain Blood.

"You have!" Levasseur's mouth fell open. "You : : : you want the girl?"

Captain Blood drew forth a small bag, twenty pearls poured into his

hand, and Cahusac appraised them as worth the ransom. Levasseur in his anger sprang at Cahusac, and a blow scattered the pearls in the sand. The men dived for them.

Levasseur, his hand on his sword, his face a white mask of rage, confronted Captain Blood.

"You do not take her while I live!" he cried.

"Then I'll take her when you're dead," said Captain Blood, and his own blade flashed in the sunlight.

It was soon over. When, with both lungs transfixed, he lay prone on the white sand, coughing out his rascally life, Captain Blood looked calmly at Cahusac across the body.

"I think that cancels the articles between us," he said.

With soulless, cynical eyes Cahusac and his mates considered the twitching body of their recent leader. Captain Blood had brought them to find Levasseur guilty of the one offense they deemed unpardonable, the crime of appropriating to himself something which might be converted into gold and shared amongst them all. Whilst still they hesitated, Blood added something to quicken their decision.

"If you will come to our anchorage, you shall receive at once your share of the booty of the Santiago, that you may dispose of it as you please."

They crossed the island, the two prisoners accompanying them, and later that day, the division made, they would have parted company but that Cahusac, at the instances of the men who had elected him Levasseur's successor, offered Captain Blood anew the services of that French contingent.

"If you will sail with me again," the Captain answered him, "you may do so on the condition that you make your peace with the Dutch, and restore the brig and her cargo."

The condition was accepted, and Captain Blood went off to find his guests, the children of the Governor of Tortuga.

Mademoiselle d'Ogeron and her brother—the latter now relieved of his bonds—sat in the great cabin of the Arabella, whither they had been conducted. He doffed his feathered hat, and came forward to the table.

Lord Julian Wade aboard the Royal Mary

"Mademoiselle," said he in his vile but fluent French, "I beg you to dismiss your fears. Aboard this ship you shall be treated with all honor. So soon as we are in case to put to sea again, we steer a course for Tortuga to take you home to your father. And pray do not consider that I have bought you. Count it, if you please, a friendly loan to be repaid entirely at your convenience."

Mademoiselle stared at him in unbelief.

"Oh, you are noble!"

Captain Blood sighed. For the whole truth, which he withheld from Mademoiselle d'Ogeron, was that in venturing his life to save her, he had been driven by the thought that the deed must be pleasing in the eyes of Miss Bishop could she but witness it.

That affair of Mademoiselle d'Ogeron bore as its natural fruit an im-

provement in the already cordial relations between Captain Blood and the Governor of Tortuga. It was not difficult then for Captain Blood to recruit able crews, and he might have increased the number of his ships as well, but he decided to hold to the three vessels which were his—the Arabella, the La Foudre and the Santiago, which he had rechristened the Elizabeth.

It was with this fleet that he carried out the enterprise against Maracaybo, an enterprise in which Peter Blood's daring was only surpassed by stupidity which almost turned the tide against him and delivered him and his men over to the tender mercies of his implacable enemy, Don Miguel de Espinosa y Valdez, the Admiral of Spain. Captain Blood had landed at Maracaybo and had found the town empty. Too soon he learned of the trap. Espinosa had put into the narrow neck of the bay with his ships and had bottled the buccaneer in the bay. A sloop, captured by Captain Blood, was loaded with combustibles and powder and was sailed directly at the Spaniards until the grapnels held the two like a vice. Then it was set aflame. The Admiral's flagship burst into blaze, and fine seamanship and hard fighting with his three ships made Captain Blood master of Maracaybo Bay. But, when the Spaniards turned tail for shore and he gave chase, the fort which guarded the bay and which had seemed deserted, poured down a raking fire upon him and drove him in mortification and despair to take refuge in the town. The Spaniards secured themselves in the fort.

With a devil's luck and clear headed thinking, Captain Blood feinted with preparations for a land attack after he had managed to acquire a large ransom in gold from the Governor of Maracaybo, and, opening a broadside, put the fort in flames. Captain Blood sailed for Tortuga. Don Miguel was left to chew the bitter cud of lost opportunity.

(To be continued)

Discount Was Worth While

Mark Twain Given Book and Seventy-five Cents

In American book-selling circles it is customary to allow a discount to publishers, authors and personal friends. When Mark Twain once visited a bookshop he chose a book and said to the assistant:

"Now, as a publisher, I am entitled to a discount of 50 per cent. As an author I am also entitled to 50 per cent, and as a friend of the proprietor I should get 25 per cent. Now what's the price of the book and what do I have to pay for it?"

The assistant did some rapid figuring and handing over the book, said:

"I guess we owe you 75 cents. Here you are. I hope we may have your further patronage!"—Jugend, Munich.

Meals Served By Electricity

Modern Restaurants in United States Have No Waiters

Electrically served meals are obtainable in some of the modern restaurants in the United States. The diner enters the restaurants, selects his table, notes on the menu the food he requires, drops the menu through a slot in the table, and waits a minute or two. Presently there is a humming noise, and in the centre of the table, on a four-poster tray, appears the food he has ordered. When the menu is slipped into the slot it drops to the kitchen below; the server there attends to the order, presses a button, and the food is on its way to the table. When the diner has finished his meal he takes the bill, which has also been delivered by electricity, and pays at the usual cashier's desk.

Claims Smallest Dictionary

A copy of the smallest dictionary in the world, as its title page says, is owned by Miss Anna Paulus, 458 4th Avenue, Milwaukee, Wis. She has had it eighteen years. The book is one inch by one-half inch in size and one-quarter inch thick. It has 384 pages. Contained in it are definitions of more than 12,000 words. It was published in Glasgow, Scotland.

The early bird catches the worm, and that ought to fill the bill.

TIRED OUT ALL THE TIME Nerves Gave Little Rest

Relieved by Lydia E. Pinkham's Vegetable Compound

Harrowsmith, Ontario.—"I took your medicine before my baby was born and it was a great help to me as I was very poorly until I started to take it. I just felt as though I was tired out all the time and would take weak, fainting spells. My nerves would bother me until I could get little rest, day or night. I was told by a friend to take Lydia E. Pinkham's Vegetable Compound, and I only took a few bottles and it helped me wonderfully. I would recommend it to any woman. I am doing what I can to publish this good medicine. I lend that little book you sent me to any one I can help. You can with the greatest of pleasure use my name in regard to the Vegetable Compound if it will serve to help others."

—MRS. HARVEY MILLIGAN, R. R. No. 2, Harrowsmith, Ontario.

In a recent canvass of purchasers of Lydia E. Pinkham's Vegetable Compound over 100,000 replies were received and out of every 100 said they had been helped by its use. This medicine is for sale by all druggists.

Canada Must Fight Geography

Sir John A. Macdonald, the first Premier of the Dominion, used to say that Canada was a difficult country to govern. The truth of that observation has become more and more apparent with the passing of the years. In Sir John's day the greatest difficulty was found in reconciling the opposing viewpoints of the French and English speaking, Protestant and Roman Catholic elements in our population, although he also was confronted with the differences existing in the economic requirements of Ontario and Quebec as compared with the Maritime Provinces. The West versus East problem had not become acute prior to Sir John's passing.

Much of the bitterness in regard to racial and religious differences which divided Canada into two camps in the eighties and nineties has passed away. Occasionally the dying embers are fanned by extreme partisans bankrupt of any solid basis for opposition to their political opponents, but such tactics are frowned upon by the people of Canada generally.

But while education and the cultivation of a spirit of charitableness has largely succeeded in banishing the old partizanship and bigotry of the past, lines of division among the people of Canada are just as sharply drawn as ever, only now the differences are wholly economic, whereas formerly they were racial and religious. While it is regrettable that there should be lines of division, they are much to be preferred to those which once existed and bedevilled public life and largely nullified every effort toward national development of the Dominion.

In this very strenuous commercial age, and in a world still handicapped by the upheaval of the Great War, Canada finds itself unable to present a united front to the world with a strong and well defined national policy. On the contrary, there is a lack of anything worthy to be called a national policy. There is an absence of deep national sentiment. Instead of the people being united as Canadians first, last and all the time, they are divided into three main groups—the far east or Maritime Province group, the central or industrial group of Ontario and Quebec, and the Western agricultural group. To some extent there is a fourth, or far west group, British Columbia. Events are, however, rapidly shaping themselves making the interests of the Prairie Provinces and British Columbia common interests.

Not man, but nature itself, has set up the obstacles operating to divide Canada into these distinct groups. For half a century Canada has been fighting nature, or geography, in an almost superhuman and certainly courageous effort to build up a united people and nation on the northern half of this continent. Canadian public men, irrespective of party, or race, or religion, and regardless of the fiscal or economic views held by them, have striven to achieve this result. It has been their lifelong dream, and the ardent desire of the majority of native-born Canadians.

Canadians have poured out money like water to develop the Dominion east and west and bind it together and into one unit from the Atlantic to the Pacific. Yet the desired result has not yet been achieved. Why? Because with a mere handful of people Canada has to fight geography all along the line. Nature never intended that the entire traffic and business of this country should proceed along rigid east and west lines. There is, first, the gap between the Maritime Provinces and the centres of Quebec and Ontario, it being easier and cheaper for the central Provinces to do business to the south, for trade, like the flowing water in a river, follows the lines of least resistance. Then comes the 1,000-mile barren stretch between North Bay and Winnipeg. Finally, the Rocky Mountains erect themselves between the Prairies and the Pacific Coast.

In Canada it is a continuous fight against geography to build up a nation along east and west lines. Yet if Canada is to remain a distinct national unit, that fight must be persisted in. There is no other alternative. Either the Dominion must break up into three or four separate groups, or become merged into the republic to the south, or its people must get together, compromise their more acute differences, adopt a policy of give and take, and with renewed courage and energy continue the battle with the obstacles which nature has set in our path to a strong, united nationhood.

It is wiser than foolish; it is positively suicidal whether as individuals, geographical groups, or as a Dominion, to go on as the Canadian people have been going. A house divided against itself cannot stand, and Canadians must either get together before long and unite on some common policy which, while not meeting the extreme views of any one section, will be acceptable to and command the support of all, or the Dominion will break up or be swallowed up.

Furthermore, the get-together policy must, in the present temper of the people, be adopted before long or it will be everlastingly too late. It may not be exactly popular to say these things quite so bluntly, but they are true, and the facts might just as well be faced. It is, therefore, the imperative duty of all true citizens and lovers of the Dominion to bend their minds and energies to the task before them and save this Dominion for their children and children's children.

No Secession Talk

Robert Forke Says There is No More Patriotic Section in Canada Than in the West

Emphatic denial to reports that Western Canada largely favored "secession" was made by Robt. Forke, M.P., leader of the Progressive party, in presenting the western viewpoint on the tariff and other matters of national importance before the Young Men's Club of the board of trade at Toronto.

In declaring that Canadians were going to fight out their own problems as one family, Mr. Forke said: "I can assure you that there is no more patriotic section of this country than the west and that this talk of secession has been unwarrantably magnified."

"I have no fault to find with moderate protection for Canadian manufacturers, but I would like to see the government announce a definite policy regarding protection and stand by it, rather than have the tariff subject to constant alterations."

It would be very difficult, said Mr. Forke, to convince the western farmer, who sold his produce and cattle in the open markets of the world, that he stood to gain by protection.

Subdues Sore Throat In a Short Time

When a severe cold grips your throat, when it makes you gag and cough—that's the time you ought to apply good old "Nerviline." This wonderful liniment sinks right in, penetrates to the very core of the affected region. You get a truly wonderful effect from Nerviline, and for sore throat, tight chests and bad colds nothing else will act the same as trusty Nerviline. Five times stronger than other liniments, full of pain-subduing power, Nerviline is a necessity in every home. Get a 25c bottle to-day.

Saskatchewan Horses For B.C.

A carload of heavy draft horses was purchased in Saskatchewan recently for prices ranging from \$200 to \$300 per head. Nine hundred dollars was paid to one man for three grade horses; and seven head cost \$1,950, an average of nearly \$250 per head. These horses went to the B.C. lumber woods.

Message of Hope to the Old Folk

George Crawford Tells What
Dodd's Kidney Pills and Dodd's
Dyspepsia Tablets Did for
Him

Quebec man relieved of rheumatism and stomach trouble

Standon, Que.—(Special).—Another tribute to Dodd's Kidney Pills is sent to us by Mr. G. Crawford, a well known resident of this place. He says: "It is with pleasure that I let you know your Dodd's Kidney Pills have done me good and I am well satisfied with the results. My trouble started from a cold. My sleep was broken and unrefreshing and I had a bitter taste in my mouth, especially in the mornings. Rheumatism also troubled me. I am now taking your Dodd's Dyspepsia Tablets and find them very good. When I feel my stomach bad I take them and get instant relief. My age is 76."

Dodd's Kidney Pills not only relieve the pain or ache that is causing the most distress, but they put the kidneys in good working order and all the impurities and poisons are strained out of the body.

Dodd's Dyspepsia Tablets keep the stomach free from trouble. They are a natural remedy, digesting the food while the stomach rests and recuperates.

London Fogs Take Heavy Toll

Deaths From Lung Disease Reach
Height During Winter

According to one authority, says Popular Mechanics, a single London fog may cost more lives than a pitched battle. The period of the greatest prevalence of the dense mists is in December, with the other winter months not far behind. At this season of the year the death rate from lung diseases reaches its height. The heavy, moisture-laden air aggravates such maladies, the lack of sunlight reduces physical resistance and illness frequently results from chills caused by the dampness. Mental depression is considered another harmful effect.

Many persons have a jaw biting power of 200 pounds.

Minard's Liniment for Colds.

English Firm Gets Contract

Carillon and Clock For Ottawa Will
Cost \$63,930

The contract price for the carillon and clock to be installed in the new Victoria Tower on Parliament Hill is \$63,930, according to official announcement made by the department of public work, Ottawa. An order-in-council has been passed awarding the contract to Messrs Gillett and Johnston, bell founders, of Croydon, England. The carillon will consist of 53 bells. The contract calls for complete installation by March 31, 1926.

Asthma No Longer Dreaded.

The dread of renewed attacks from asthma has no hold upon those who have learned to rely upon Dr. J. D. Kellogg's Asthma Remedy. So safe do they feel that complete reliance is placed on this true specific with the certainty that it will always do all that its makers claim. If you have not yet learned how safe you are with this preparation at hand get it to-day and know for yourself.

Freezing By Wireless

A Scandinavian claims to have designed a contrivance that will broadcast refrigeration (according to the inventor) in exactly the same way as present-day wireless stations broadcast music. All that the housewife of the future will have to do is to keep her refrigeration receiver tuned to a central sending station.

Sores Flee Before It.

There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil. All similarly troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

Making Banana Flour

The manufacture of banana flour has been started at Singapore, India. It will be used in the manufacture of chocolate biscuits, cakes, and as a beverage mixed with cocoa and milk.

Minard's Liniment Fine for the Hair

New Zealand Blind Are Prosperous
Out of 600 blind people in New Zealand, only 87 have applied for the pension granted by parliament. The explanation is that they are able to make a good living in various ways.

Return Relic To Canada

The shield which was taken from the gates of old Quebec after the capture of the city by General Wolfe, and is now in possession of the town of Hastings, Eng., will be returned to the Canadian city.

NATURE'S WARNINGS

Danger Signals That Everyone
Should Take Seriously

Pain is one of Nature's warnings that something is wrong with the body. Indigestion, for instance, is characterized by pain in the stomach, and often about the heart; rheumatism by sharp pains in the limbs and joints; headaches are a sign that the nerves or stomach are out of order. In some ailments such as anaemia, pain is not so prominent. In this case Nature's warning takes the form of pallor, breathlessness after slight exertion, palpitation of the heart, and loss of appetite. Whatever form these warnings take, wise people will not ignore the fact that many diseases have their origin in poor blood, and that when the blood is enriched the trouble disappears. Dr. Williams' Pink Pills are most helpful in such cases because they purify and build up the blood to its normal strength. In this way it tones up the nerves, restores the appetite and gives perfect health. Miss Hazel Berndt, of Annapolis, Ont., has proved the great value of this medicine and says:—"I am a young girl and have been working in a factory for the past four years. For two years I had been in such poor health that at times I could not work. I was thin and pale, and troubled with headaches and fainting spells. I doctored nearly all this time, but it did not help me. My mother advised me to take Dr. Williams' Pink Pills, and after using them for a while I could notice an improvement in my condition. I used nine boxes and can truthfully say that my health is restored. When I began taking the pills I weighed 97 pounds and now I weigh 114. I feel that I owe my good health to Dr. Williams' Pink Pills and hope other ailing people will give them a fair trial."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

India's First Electric Railway

The first electric railway in India was opened by Sir Leslie Wilson, the Governor of Bombay, when he set in motion a train on a Bombay suburban section of the Great Indian Peninsula Railway.

Children Cry for

Fletcher's
CASTORIA

MOTHER:— Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Dr. H. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

NAVAL PROGRAM FOR CANADA TO DEFEND COASTS

Ottawa.—A resolution proposing that "Canada should consider the question of defence of our sea coasts and of our ocean-borne lines of commerce," was introduced in the House of Commons by A. W. Neill, Independent, Comox-Alberni.

Mr. Neill introduced the subject by suggesting that the question be taken up in a non-partisan spirit. He suggested that a small committee of the house might be formed to consider the matter, with the aid of technical experts. A policy might be evolved of defence under the name of the "Canadian policy."

Mr. Neill urged the necessity for defence of coast lines and shipping. The dry dock at Esquimalt, which was to be finished shortly, would be of vital importance to any British naval operations in the Pacific. Today, it was particularly open to the world, with only a few obsolete guns to protect it. Mr. Neill quoted General McBrin as stating that the next war would be in the Pacific.

The value of public works in Vancouver and Victoria was estimated at \$200,000,000, and a coast line of 10,000 miles was absolutely defenceless. Most important of all was the defence of shipping. The greatest damage could be done there, and the object of any enemy would be a blockade and destruction of shipping.

Says Danzig Well Armed

Paris Correspondents Report City Arsenal of Rifles and Machine Guns

Paris.—"Danzig is like a powder magazine," says the correspondent of Le Journal, who, with the representative of Le Matin, went to that free city to investigate the difficulties between it and Poland. "The day Europe blows up it will be because Danzig exploded," the correspondent continues. "Two Prussian artillerymen await, one at Koenigsberg and the other at Berlin, fuse in hand, ready to act when the time comes."

Le Matin's representative says Danzig, with its German population of a third of a million, can arm 60,000 men at the first call. He adds that the city is a regular arsenal of rifles and machine guns.

Germany Is Disarmed

Retiring U.S. Ambassador to Germany Denies Reports Circulated to Contrary

New York.—Alonso B. Houghton, retiring United States ambassador to Germany, and the new ambassador to Great Britain, who arrived on the Aquitania, emphatically denied to interviewers that munitions were being stored in large quantities in Germany. "Here or there," he said, "may be found some crazy men, or a few radicals, who may have stored a hundred or more guns, but I can say Germany is disarmed."

Hudson's Bay Company Land

98,059 Acres of Land Granted to Company in the Last 10 Years

Ottawa.—During the last 10 years the Hudson's Bay Company has been granted 98,059 acres of land. The land is in the prairie provinces and Northwest Territories. Of the total, 42,836 acres are classed as notifications and allotments of one-twentieth; of the remainder, 55,156 acres are classed under exchange account.

The above information was furnished by the government in reply to a question in the house.

DANDRUFF

Minard's cleanses the scalp, opens the pores, stimulates the roots of the hair to new activity. Rub Minard's into the scalp four times a week.

W. N. U. 1548

Alberta Legislature Endorses Senate Reform

Edmonton.—The legislature endorsed a resolution by W. H. Davidson, Independent member for Calgary, urging senate reform, and also supporting the suggestion made in the speech from the throne in the Parliament of Canada, providing that this body be empowered to amend the British America Act. There was no active opposition to the resolution. All speakers agreed that some form of senate reform was necessary. Some even went so far as to advocate abolition of the senate entirely, while others suggested a limitation of powers.

Plan Is Not Favored

Scheme to Settle Retired Professional People in Dominion Is Frowned On

London.—It is doubtful whether the scheme to settle retired professional people possessing fixed but comparatively small incomes, in the different dominions on the community principle proposed by Sir Roland Bourne and others, will be seriously considered.

The idea is that retired civil servants and general professional folk, who now take themselves to a modest English or continental resort, would welcome the opportunity of dwelling more or less closely together in the dominions.

It is suggested that 50 to 100 of these families could establish communities, with a clubhouse for meals, etc.

Many critics suggest that it would be pretty "cool" to expect the overseas settlement committee to provide financial assistance for helping those who have made their life's income from the British Government to spend their retiring allowances outside the country.

Beet Growers Organize In Southern Alberta

Propose Bringing In Russian-German Families to Work in Fields

Lethbridge, Alta.—One hundred beet growers of Southern Alberta have organized the Southern Alberta Beet Growers' Association. Representatives of all irrigation districts were present at the meeting with T. George Wood, manager of the Utah-Idaho Sugar Company, and means of financing and finding labor to handle 6,000 acres of beets this year were considered. An effort will be made to bring in Russian-German families for work in the beet fields, and a representative of the C.P.R. was present to offer co-operation in this regard. Japanese labor is also being considered. Financing the growing of the crop is now being discussed with the Bankers' Association.

Work Will Be Costly

London.—The announcement of the partial closing of St. Paul's Cathedral, enabled the public to realize the magnitude and the cost of work which will require to be accomplished before the edifice is made secure for the years to come. No exact estimate of the expense can yet be made, but the work extending through years will make large demands upon the public for support.

Competing With Foreign Coal

Brussels.—Many Belgian coal mines have been compelled to close for one day weekly because of the competition from foreign coal. They have also discharged their foreign employees. The Belgian coal stocks have reached the unprecedented total of two million tons.

Automobile Thieves in Calgary

Calgary, Alta.—Automobile thieves were responsible for \$21,300 out of the \$24,038 worth of property stolen in this city during February, according to the monthly report of the Calgary detective department. Of 16 cars taken, all but one were recovered during the month.

Professor Of Chinese Dead

Sandown, Eng.—Sir Alexander Hosie, professor of Chinese at Oxford University, died recently, aged 72 years. He was the British delegate to the Shanghai international opium commission in 1909, and was the author of a number of works on the Far East.

Was Choice of Convention

W. A. AMOS

For third successive year chosen to head Canadian Council of Agriculture. He is also president of the U.F.O.

Alberta Deficit

Will Conserve and Develop Natural Resources in the Interests of the People

Edmonton.—In his annual budget speech in the Alberta Legislature, Hon. R. G. Reid, provincial treasurer, forecasted a deficit of \$368,632.51 on general income account for the year 1925. The deficit last year was \$629,811.42.

Hon. Mr. Reid announced the intention of the government to re-enact, in a different form, the Miner's Right tax, which was disallowed by the Dominion Government last year, but no item is included in the estimated revenue for this tax.

"We are confident," said Mr. Reid, "that the natural resources can be more economically administered by the province than by the Dominion authorities. It will be our duty to see that these resources are conserved and developed in the interests of the people."

Features of the budget speech are: Estimated increase in revenue for 1925, \$778,267.46.

Estimated increase in expenditure and controllable expenditures between 1921 and 1924, \$1,171,864.14. No new tax methods forecasted.

Manitoba Drug Addicts

Seventy Known Cases in Province Is Reported in House

Winnipeg.—There are 70 known drug addicts in Manitoba, according to a return tabled in the Provincial Legislature by Hon. D. L. McLeod, municipal commissioner.

Estimates ranging from 400 to 800, including Chinese, the return states, are mere conjectures, and comprise a large percentage of persons known in police circles as "floaters."

The report suggests control is not a question of public health. It declares efforts toward suppression of the traffic in narcotic drugs are more likely to produce healthful results.

France Requires Foreign Loan

Only Way Treasury Can Pay Obligations Promptly

Paris.—A foreign loan of four or five billion of francs to enable the treasury to pay its obligations promptly is France's fundamental need in the present and approaching financial crisis, says Louis Loucheur, in a long interview published by Le Journal. The paper had appealed to him, as an outstanding expert in finance, to suggest a way out for the country facing the maturity of 23,000,000,000 francs' worth of securities this year.

Appetite Keen and Bowels Relieved

You can relish your meals without fear of upsetting your liver or stomach if you will put your faith in Carter's Little Liver Pills. Foul accumulations that poison the blood are expelled from the bowels and headache, dizziness and sallow skin are relieved. Small Pill—Small Dose—Small Price.

Coarse Grain Pool For Saskatchewan

Regina.—Decision to operate coarse grain pools when 50 per cent. of the four-year average acreage sown to rye and flax and 33 1-3 per cent. of the four-year average acreage sown to oats and barley have been signed up, was reached at a meeting of the Saskatchewan wheat pool directors. This decision was taken on instructions from the recent delegates' meeting authorizing the board to proceed with the organization of coarse grain pools immediately. The board took the view that it was vitally important that the pools should control the major portion of the marketable surplus of coarse grains.

Did Extensive Exploration Work

Director of Geological Survey of Canada Dies at Ottawa

Ottawa.—Dr. William McInnes, formerly director of geological survey of Canada and director of the Victoria Museum, Ottawa, died in a local hospital here after a lingering illness, aged 67. He did extensive exploration work in all parts of Canada and several geological reports compiled by him will remain monuments of his efforts. He was a native of Fredericton, N.B., where he was educated at the University of New Brunswick.

Dr. McInnes' first geological work was done in his home province of New Brunswick, and later he spent considerable time in exploration work in Northern Ontario and Manitoba. Extensive explorations were made by him along the Severn and Albany Rivers, while he also spent a long period making geological explorations along the proposed route of the Hudson's Bay Railway.

Explorers Killed In British East Africa

Knocked Down and Trampled By Wounded Rhinoceros

London.—A dispatch to the Daily Mail from Malindi, in the Kenya Colony of British East Africa, reports that Mrs. Green, a noted Irish explorer, from Dublin, and Captain Atkins, have been killed by a rhinoceros. Mrs. Green was about to climb Mount Kenya when she encountered the rhino at Nanyuki. The woman fired and wounded the animal, which thereupon charged upon and fatally injured her.

Captain Atkins, accompanied by his wife, arrived later on the scene, and the rhinoceros charged upon them. The captain shouted a warning to his wife, and tried to blind the animal by throwing his coat over its head, but was knocked down and trampled to death. Mrs. Atkins made her escape and brought back gunmen to the scene, who shot and killed the animal.

French To Explore Arctic

Norwegian Will Conduct Expedition to Franz Joseph Land

Oslo, Norway.—Captain Otto Sverdrup, Norwegian explorer, has consented to conduct the French Arctic expedition's ship to Franz Joseph Land. The expedition, under Lieutenant Jules Depayer, probably will start this summer, and will be gone a year. Airplanes will be used, and it is possible an attempt will be made to reach the Pole, but the main objects of the expedition are scientific.

No Discrimination Shown

Ottawa.—After a comparatively brief discussion, during the course of which Hon. Charles Murphy, postmaster-general, assured the House of Commons that no discrimination against the Canadian National Railways in the carriage of mails was being practiced, a resolution opposing such discrimination was withdrawn by its mover, W. J. Ward, Progressive, Dauphin.

Large Shipment Of Chinese Cotton Victoria.—When the liner Empress of Australia arrived recently from Yokohama, her cargo included 1,500 tons of Chinese cotton, the largest single shipment of this character ever sent from China to Canada. She also carried nearly 3,500 bales of raw silk, valued at more than \$4,000,000, for New York. Her passenger list numbered 304.

FRANCE MAKES THREAT TO FORM A JAP ALLIANCE

London.—The French are threatening an alliance with Japan and Russia, in the event of the failure to secure from Britain the strong pact of security which they are demanding. The basis of the proposal is a grant of permission to Japan to use Indo-China ports in the event of war with the United States or Britain.

France's position now is that both the Geneva protocol and Anglo-French pact proposals are dead. The protocol was killed by the opposition of the Dominions and the pact was undermined largely by the publication of the Chamberlain memorandum. This was published widely in the British and Dominion press and so aroused public opinion that the cabinet was forced to take action definitely opposing the plan. Austen Chamberlain had to tell Premier Herriot while passing through Paris recently that it would be impossible for Great Britain to carry out the plan he had suggested.

This leaves only one plan—that proposed by Germany, but the French are opposed to this, both because they fear it would help re-establish Germany, and because they are tied by promises to Poland.

Northern Telegraph Upkeep

Government Lines in Northern Canada Are Operated At a Loss

Ottawa.—Half a dozen telegraph offices operated by the Dominion Government in Northern Canada cost, for upkeep, in 14 years, \$94,274 more than they earned. This is shown in a return tabled in the house, which gives details of receipts and expenditures for six offices in the Peace River country. Of these only one, Grande Prairie, came near to paying expenses, which were \$27,539 for the 14-year period, while its revenue totalled \$23,889.

Peace River, in the same period, earned \$31,249 and cost in upkeep, \$67,512; Spirit River earned \$11,275 and cost \$24,226; Dunvegan earned \$3,069 and cost \$6,745; Beaver Lodge earned \$2,291 and spent \$15,514; and Waterhole earned \$1,377 and cost \$5,888.

Alberta Has Endorsed Game Law Conference

Aim Is To Protect Game On Border Lands

Winnipeg.—Alberta has endorsed the proposed conference of game law officials of Canadian provinces and adjoining states, J. H. Evans, deputy minister of agriculture, announced. Manitoba proposed the meeting, and Minnesota has already endorsed it. Ontario has been asked to support the scheme. It is sought to provide adequate machinery for mutual protection and control of game on inter-provincial and international border lands and to breakers of law seeking immunity across these borders.

Inventor Of Barbed Wire

Dekalb, Ills.—The inventor of barbed wire is celebrating his 99th birthday. He is Jacob Halsh, president of a bank here, which institution he conducts by telephone from his bed, having been an invalid for more than a year.

COMEDY—"MONKEY MIX-UP"

That Fellow Feeling

YOU are all wrapped up in the merchandise that fills your store. You enthuse over the quality of this article and that line. You probably display the goods attractively, too.

All you need now is to transmit your enthusiasm to the buying public of your community—and your goods will move out and profits roll in.

ADVNTISE. For advertising makes the customer feel as you do about the goods you have to sell. Every time you talk to prospective buyers through an advertisement in "THE DIDSBURY PIONEER," you are increasing the fellow feeling that brings business to your store.

AROUND THE TOWN

Mr. and Mrs. A. C. Fisher were visitors in Calgary this week.

Mrs. Clas Brown, of Westcott, who has been visiting friends at Cochrane for some weeks, returned on Wednesday.

Special Lenten Service will be held in the Westcott Lutheran church on Sunday, March 22nd, at 8 p. m., Rev. C. Nissen, pastor. You will be made welcome.

Mr. B. Frasch returned on Wednesday from Calgary where he appeared before the Board of Pension Commission. We are glad to be able to report that Mr. Frasch is very likely to receive a decided increase in his pension.

The many friends of Mr. W. Wrigglesworth will be sorry to learn that he is laid up with blood poisoning in one of his hands. He passed a bad night on Tuesday but was somewhat better on Wednesday. Dr. W. G. Evans is attending the case.

Wor. Bro. Fisher together with about fifteen of the Past Masters, officers and members of King Hiram Lodge, No. 21, A. F. and A. M. paid a visit to Cetland Lodge, No. 83, Calgary, on Tuesday night. A royal welcome was extended the visitors and a pleasurable and profitable evening was enjoyed.

The Municipal Official

"Man that hath to do with the public business is of few days and full of trouble."

"He cometh forth in the morning with high hopes and ere the setting of the sun of that day he hath met with many reverses and continueth not."

"Yet, Oh Lord, have compassion on the children of Thy creation that have to do with the public business. Be present and administer them comfort in time of trouble, for they are in trouble most of the time."

It would be wise for every person to clip out this little bit of wisdom and save it. It is a good-natured rebuke for the many critics of municipal officials who know not whereof they speak.—Emporia Gazette.

AUCTION SALE
